Web Core & Performance: REST APIs, Core Web Vitals, Responsive Design, Image Optimization (next/image), Semantic HTML/SEO

EXPERIENCE

Ervon Technology Pvt Ltd | Frontend Developer

March 2026 – Present | Mumbai, Maharashtra

- Built and launched 2 production corporate websites from scratch using Next.js and Tailwind CSS.
- Created clean, responsive, and interactive UI components with smooth animations using modern React.
- Refined UI layouts, responsive breakpoints, and CSS spacing grids to ensure pixel-perfect consistency across mobile, tablet, and desktop viewports.
- Architected interactive lead-capture modals and integrated serverless API routes with Nodemailer for automated email triggers and customer inquiries.
- Developed type-safe modular components using TypeScript interfaces and props.
- Managed code and pushed updates regularly using Git and GitHub.

SELECTED PROJECTS

URBANETEK Digital Platform | Next.js TypeScript Tailwind CSS | Live Demo - https://www.urbanetekib.com/

- Developed complete company website UI in Next.js with reusable components and semantic HTML.
- Built custom click-triggered navigation dropdown menus and clean responsive sections.
- Added server-side API routes to capture user inquiries and send emails automatically via Nodemailer.
- Optimized images with next/image and reduced page load times for better SEO and Lighthouse scores.

Shree Jeteshwar Steel Arts Website | Next.js Tailwind CSS | Live Demo - https://www.shreejeteshwarsteelarts.com/

- Built responsive multi-page layouts from scratch using Next.js component-based structure.
- Added SEO meta tags, OpenGraph previews, and clean semantic tags for better search engine indexing.
- Integrated validated lead forms and instant WhatsApp chat buttons to boost client inquiries.

Kosan Energy Website | Next.js Tailwind CSS | Live Demo - https://kosanenergy.com/

- Built a clean, mobile-responsive corporate website showcasing industrial gas and energy solutions.
- Designed modular layout sections and clear navigation menus to present complex engineering services simply.
- Optimized assets and responsive layouts to ensure smooth scrolling and fast load times across devices.
